### THE PEDIATRIC GROUP RESPONSE TO COVID-19

During this difficult time, we recognize that all of you are concerned and want to preserve the health and safety of your families. We are sensitive to that need, and share your concern for our own families and our staff. We have taken the following steps to make our practice safe:

- 1) We now offer only well visits during the morning session (before 1:00 PM) and only sick visits during the afternoon session (2:00 PM to 5:00 PM).
- 2) The office is cleaned thoroughly between patients and after each session.
- 3) Patients can call us from the parking lot when they arrive and be put immediately into a clean room for their visit.
- 4) For those who are still concerned, we now have the ability to perform a **TELEMEDICINE** visit. This visit, like any other, needs to be scheduled as it will involve person to person audio visual contact with one of our providers. Call our front desk for more information.
